Chairman Desk

Mr. Jaysing Darekar

Founder President - DSF
Executive President - Elite School

A beacon of light who illuminates & steers us towards the path of success.....”

A towering inspiration, You stand like a General in Command
Perfection is what you demand, With generosity and compassion
You taught us to have courage, And sublime faith in self,
Strength not to follow the crowd. After the night we see the dawn. Hold our heads high And be radiant with pride.

It is extremely gratifying to see this glorious institution growing from strength to strength. Our intent is to shape tomorrow’s citizens and make them academically sound, physically robust, morally upright and oozing with confidence. Multidimensional events are organized to unravel the children’s latent talent and make them well groomed. Ours is a cohesive system which gives a strong and balanced impetus to academic rig our and co - curricular achievements. We are also making a gradual and steadfast foray into infrastructural changes to give our students a resourceful learning environment. With seasoned teaching and establishment staff, we look forward for creating global citizens whose outlook will be modern and value grounded. Best opportunities are provided to each child to recognize aptitude, maximize potential, enhance performance and overcome weaknesses. We envisage that before leaving the ramparts of Elite School, every child is packed with positivism and imbued with lofty ideals, right habits, attitudes and manners.

Principal Desk

Mrs. Pallavi Darekar

Director - DSF
President & Principal - Elite School

On behalf of the Management, staff and the school community, I extend to all our parents and children a very warm welcome and sincerely hope that your association with our school will be a happy and productive one. The world of tomorrow will be created by the children of today. Thus, the onus to contribute something worthwhile to the society primarily rests on these children. Education is the basic requirement for the success of an individual in the present modern world. Acquiring knowledge isn’t just about learning textbooks, or securing marks, it is more about sharpening our skills, shaping our psyche, developing social virtues, and ultimately being of service to the society. I believe that character formation should have priority over knowledge of the alphabet, as education without character is like the sun without its radiance. Following this ideology, we, at Elite School, facilitate the children to use their potential optimally, positively and creatively, which helps them become aware and independent, make correct choices, and thus stand for what is true and right. I am confident that Elite School will always be a beacon of light, guiding the destiny of its students, while radiating kindness and compassion as it soars high in its pursuit of academic excellence and fulfillment of the school motto "Give Wings to Your Dreams". I would like to end with A.P.J. Abdul Kalam's quote: "We are all born with a divine fire in us. Our efforts should be to give wings to this fire and fill the world with the glow of its goodness."
